👜 EXPERIENCE

Senior iOS Engineer & Founder · [Gentle Giraffe Apps](#) · Aug 2025 - Present

Designing and building modular SwiftUI systems and open-source packages ([GentleDesignSystem](#), [GentleNetworking](#)) to enable scalable, testable, and maintainable iOS applications.

Tech: Firebase, MapKit, LLM integration and prompt-driven systems, SPM

Senior iOS Developer · [Intuit](#) · Mountain View, CA · Dec 2016 – Apr 2025

Developed Quick Actions, Customer Feedback, and My Business Dashboard by building extensible systems in a large-scale monorepo, resulting in features used by millions.

Architected a unified iOS release platform across 4 products (~70 engineers), reducing build times by 40% and improving release stability.

Redesigned analytics and localization infrastructure, improving scalability and reducing operational overhead.

Owned and evolved the iOS UI automation suite by establishing coverage standards, improving test stability and developer confidence.

Senior iOS Developer · [UrbanSitter](#) · San Francisco, CA · Dec 2015 – Dec 2016

Redesigned the landing dashboard using [SwiftBond](#) with a focus on speed and visual polish, resulting in improved user ratings and retention.

Developed native in-app social sharing features to enable referrals and organic growth, resulting in increased user acquisition.

Tech: Interface Builder, Cocoapods, iOS share APIs, Bitrise, Accessibility

iOS & Android Developer · [Kurbo Health](#) · Palo Alto, CA · May 2014 – Nov 2015

Developed payment and subscription modules for onboarding and billing, resulting in a streamlined user onboarding experience.

Co-led development of in-app chat and guided tutorials to improve engagement and program completion.

Tech: Objective-C, Stripe, Android SDK, Gradle, XML Layouts, Pub-Sub

Independent iOS Developer / Consultant · 2013 – 2014

Single-handedly led [JamIn3D](#) from 0->1 concept to App Store launch. Built a real-time OpenGL ES musical engine reaching 40k+ users.

Lead Game Engineer · Digital Chocolate · San Mateo, CA

Developed games and internal tooling; authored engineering manual for global studios and built handset capability detection system (LAMP).
