😊 SUMMARY

👋 Hi.

I'm a senior iOS developer with over 15 years of experience shipping production applications. Building delightful, reliable mobile products in Swift and SwiftUI is what I do best. Clear communication, strong craft, and elegant solutions shape my work.

🔧 SKILLS

Languages

Swift · Objective-C · Python

Frameworks & Tools

Xcode · Jenkins · SwiftUI · UIKit · GraphQL · REST

Best Practices

Unit / UI / Integration Tests · MVVM+C

👜 EXPERIENCE

Senior iOS Engineer & Founder · [Gentle Giraffe Apps](#) · Aug 2025 - Present

Architected and authored the [GentleDesignSystem](#) and [GentleNetworking](#) open-source Swift packages and [Gentle Engineering Notes](#), a technical writing repository.

Prototyping speech-based learning applications exploring architecture, UX, and monetization strategies.

Tech: Swift, SwiftUI, async/await, SPM, REST, Firebase, XCTest, AI / LLMs (Gemini, Claude, ChatGPT), Tuist, Bazel, Spline, MapKit

Senior iOS Developer · [Intuit](#) · Mountain View, CA · Dec 2016 – Apr 2025

Primary contributor to global customer-facing Quick Actions, Customer Feedback, and My Business Dashboard flows within a large-scale iOS monorepo serving millions of users.

Architected and launched a unified iOS release automation platform across 4 QuickBooks mobile products, standardizing CI/CD workflows, UI test strategy, and release governance for ~70 engineers. Replaced fragmented manual processes with automated pipelines, Slack-integrated breakage alerts, and structured triage systems, reducing CI build times by 40% and materially improving release stability.

Re-architected shared infrastructure components, including the iOS analytics module and localization pipeline, consolidating fragmented systems into scalable, automated workflows.

Owned and evolved the QuickBooks iOS UI automation suite (XCUITest) for 3 years, establishing coverage standards and reliability practices that improved test stability and developer confidence within the team.

iOS Mobile Developer · [UrbanSitter](#) · San Francisco, CA · Dec 2015 – Dec 2016

Redesigned landing dashboard using [SwiftBond](#). Focus on speed, visual polish, and delight contributed to higher ratings and retention.

Developed native in-app social sharing features to drive user referrals, viral acquisition, and organic user growth.

Tech: Swift, Reactive Programming, REST, Interface Builder, CocoaPods, iOS share APIs, Bitrise

iOS & Android Developer · [Kurbo Health](#) · Palo Alto, CA · May 2014 – Nov 2015

Developed payment integration and self-administration modules supporting subscription onboarding, billing, and in-app purchases.

Co-led design and implementation of in-app chat features and guided tutorial systems, improving user engagement and program completion.

Collaborated with backend team to migrate client-side assets to server-side services.

Tech: Objective-C, Stripe, Android SDK, Gradle, XML Layouts, Pub-Sub

Independent iOS Developer / Consultant · 2013 – 2014

Multiple client projects including UrbanSitter (contract), 4Soils, and SmileUp.

Single-handedly led [JamIn3D](#) from 0->1 concept to App Store launch. Built a real-time OpenGL ES musical engine reaching 40k+ users.

Tech: Objective-C, Facebook SDK, Interface Builder, Git

Lead Game Engineer · Digital Chocolate · San Mateo, CA

Mobile platforms: BREW (C++), J2ME (Java), Android, iOS. Developed games and internal tooling; authored engineering manual for global studios and built handset capability detection system (LAMP).

Additional professional experience available on [LinkedIn](#).

EDUCATION

Bachelor of Science in Computer Science · Bowling Green State University
Associate of Science in Game Design, Salutatorian · Full Sail University

PUBLISHED APPS

[QuickBooks Business Accounting](#) · Role: Senior iOS Engineer · Reach: 1M+
[UrbanSitter - Childcare](#) · Role: iOS Engineer · Reach: 500k+
[Kurbo Health - Healthy eating](#) · Role: iOS Engineer · Reach: 200k+
[JamIn3D - Musical Improvisation](#) · Role: Creator & iOS Developer · Reach: 40k+
[Crazy Penguin Catapult 2](#) · Role: iOS Reskin Engineer · Reach: 100k+
River Rider · Role: Game Architect & Sole Engineer · Commercial prototype

ADDITIONAL EXPERTISE

Practices

Clean Architecture, SOLID Principles, Technical Debt Management

DevOps / Tooling

Release Engineering, Feature Flags (LaunchDarkly), Product Analytics (Amplitude, Segment), Observability (Splunk), Monorepo Tooling, PII, Keychain, Authentication, Feature Flags, A/B Testing

Tools & Platforms

App Store Connect, Google Play Console, Firebase Console, GitHub

Professional & Interpersonal Skills

Technical Leadership, Stakeholder Communication, Product Thinking, Backend Collaboration, Engineering Best Practices, SOC Compliance

ADDITIONAL INFORMATION

Organizer: Dev Careers: [Adapt and Thrive meetup](#). 5k members.

First program: "Guess the number" at 7 years old.

Languages: English (C2), Portuguese (B2), Spanish (B1)

Trivia: Prince Charles once waved to us during an official visit near Brasília.
